

The quality management (QM) in highly regulated industries is faced with constantly growing requirements and regulations for quality assurance and compliance. At the same time there is continuing economic pressure to improve the operational efficiency in compliance with the requirements for quality assurance.

Therein lie the specific advantages in the use of the enterprise quality management system (EQMS) TrackWise®.

**INCONSULT MODERATES AND SUPPORTS** the process of system definition and accompanies the entire history of your TrackWise® projects. We analyse, optimize and implement existing QM processes such as:

- **Audit Management**
- **Deviation / Incident**
- **CAPA**
- **Investigation**
- **Change Control**
- **Supplier Qualification**
- **Complaint Handling**
- **Training Management**

 **SPARTA connection**  
München 7. - 10. April 2014

TrackWise®  
**GOLD SPONSOR** **INCONSULT**  
making your processes run

**WITH THE MARKET-LEADING EQMS TRACKWISE®** of Sparta Systems compliance can be documented consistently and secured in the long term.

**AS FIRST SPARTA SYSTEMS IMPLEMENTATION PARTNER** in Germany INCONSULT offers comprehensive TrackWise® expertise and deep knowledge of QM and GxP - processes which are required to implement and support your TrackWise® projects.

**BASED ON YOUR BUSINESS PROCESSES** and requirements, we create TrackWise® prototypes and configure development, validation and production systems. We implement TrackWise® interfaces to DMS, ERP - and CRM systems and migrate existing data. In your projects our consultants assist your team with administration and reporting.
